

Computer To Do List

First, ALWAYS Turn the computer on in front of the customer.

Run the following programs in this order:

Geek Uninstaller (removes suspicious programs from the computer)

ADWCleaner (removes malware from the computer)

JRT (Junk Removal Tool)

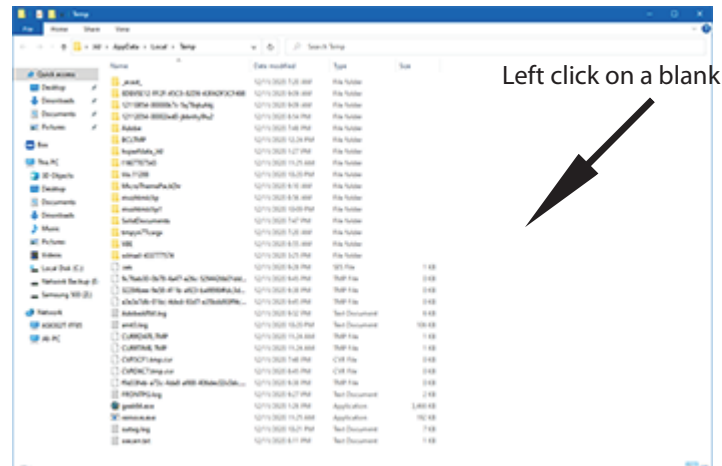

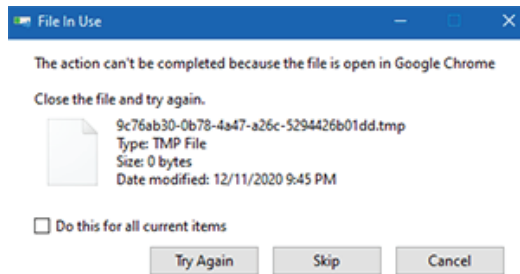

After running those programs, go to this step:

Clear the temp files "hit the start button, type "run", hit **ENTER** then type %temp% hit **ENTER**

Left click on a blank place in the window and hold Ctrl and tap "A" (to select all files). Then hit the "delete" key.

to delete the temp files. If a box comes up saying "This action can't be completed..." then check the box, Do this for all users, then click on **SKIP** if any other box comes up like that, click "Do this for all users" and click **CONTINUE** or **SKIP**

Then go to C:/Windows/Temp, left click on a blank spot, hold Ctrl and tap "A" to select all files, Then hit the "delete" key.
